The female operatives in some of the factories in Lowell, being pre-vented by the mission of the machinery from indelging by the indispensable amusement of the gentler sex, have resorted to a new mode of telegraphing.

FINGER TALKING IN PACTORIES.

Fingers have been substituted for tongues, and through the inetrumentality of the alphabet of signs, invented for the nee of the deaf and dumb, while away their "hours" with discussions on matters and things in general.

The new mode is a great advantage over the old science; the whole party can talk at once without any confusion, a hundred feet being as little interuption to these communications as five.

This language of signs is well worth acquiring, as the facilities which it affords are often valuable, especially in a sick room.

A distinguished philantropist of Massachusetts has Lecome so habituated from the force of circumstances, to the use of this mode of interchanging thought, that, its superiority over the old system is a theme which he never tires of discussing. Upon his showing, the tongue is not only an unruly, but very nearly a useless member.

AN OFFCER COURT MARTIALED AND DISMISSED THE SERVICE. - Lieutenant George M. Wright, of the Third Artillery, (regulars) formerly stationed at Alcatraz Island, has been tried by court martial for "embezzlement," "conduct unbecoming an officer," "neglect of duty," etc., to most of which charges he pleaded "guilty." The sentence of the court is that "he forfeit all pay and allowances that are or may be due him, and be dismissed from the service of the United States." Gen. Mc lowell, in approving the sentence of the court, says :

"The mild sentence of the court has been approved, in consideration of the fact that the conduct of the accused was not the result of a deliberate plan or the consequence of confirmed depravity; but of an act done under bad influence, while in a state of unnatural excitement. - Bulletin

A VETERAN VOTER -Mr. Gale House, of Turner, Maine, who will complete his ninety-fifth year on the first of next month, on election day, rode with his son four miles to the town-house, walked, unsupported, from his conveyance to the ballot-box and deposited his vote for Lincoln and Johnson. He first voted for Washington, and has voted in every Presidential election since.—Boston Journal.

# The Duity Anion Vedette.

TUESDAY MORNING, FEB. 7, 1865.

Reasons why Utah Should not be Admitted into the Family of States.

The Government of the people is a

Church-low is regarded as superior to any civil law, and is so taught to the people by the leaders.

Polygamy is practiced daily, in defiance of the law of Congress against it. No attention is given to the law of Congress forbidding any church organization in any Territory, to hold more than fifty thousand dollars worth of real

estate. The Organic Act of the Territory is violated by the Legislature whenever it suits that body.

Brigham Young has declared that he can buy any Jury in Utah with a sixpence.

. The right to shed human blood for the remission of sin, is claimed by the leaders.

The perpetrators of the Mountain Meadow Massacre of 1857 have not yet been brought to justice-neither will church leaders take any steps to do so, nor aid the United States Court to do so, although there is every reason to believe that the leading then in that massacre are known.

The National currency is derisively termed by the leaders-"Lincoln skins." The church leaders say that this na-

tion is bound to fall and that it ought to be destroyed.

Brigham Young has said that he did not want to live with a people who have brought ruin upon themselves-that he would have a government of his own.

The Statutes of Utah are filled with unjust, wieked and outrageous laws, oppressive to every man who does not bow down and worship the one man power

The civil law of Utah is mainly intended to shield, protect and legalize the practices of the Mormon Church.

The Legislature refuses to pass laws calculated to develope the great mineral wealth of the Territory.

The delegate new in Congress from Utah, has said, ic a public speech in this Territory, that this nation will be, and ought to be, destroyed.

No word of genuine loyalty has passed the lips of any leading churchman in Utab since this war commenced.

The war for the Union is termed a "Kilkenny cat affair," in which Mormons have no interest and that they do not care which side whips.

Every man and woman in the Territory who do not belong to the church are proscribed.

The leaders are opposed to secular and religious freedom.

The leaders make a mockery of Law and deride Justice whenever either interfere with their schemes.

The Parish. Potter, Forbes and other murders committed by Church counsel have never been punished, although it is quite certain who committed them.

It is asserted by leaders "that man is not capable of self government."

Treason is taught to the people from every Tabernacle stand in the Territory at every opportunity.

The leaders gloat over the reverses that befall our armies.

Utah, as now controlled by the church leaders, is a disgrace to the Nation and

to Christianity.

The leaders only crave for a State government so as to enable them to carry on more securely their evil designs.

THERE is iron enough in the blood of a man to make a ring large enough to wear on his finger .- It.

And enough of another metal in a cient to make a brass instrument, which may account for some men "tooting the great entrepot between the Orient ley and Bingham Canon and we will of California, and opposes the adoption deputies were in pursuit of the their own horns."

#### Will it Amount to Anything?

It may not be generally known that the mouth of the Colorado belongs to Mexico. With this exception the river is the property of the United States. The Mexican line extends thirty miles, or thereabouts, over the outlet of an American river which is navigable for a distance of four hundred and fifty miles,

It will be remembered that, not long since, a quantity of ammunition was taken from an American vessel by certain French officials. It was thought at the time, that an outrage had been committed upon an American vessel in Ameri can waters; but an examination has proved that the act - none the less an outrage - was committed in Mexican waters. Our Government acquired the territory now embraced within New Mexico, Arizona and Utah, by the treaty of Hidalgo, and it appears that the outlet of the Colorado river was overlooked in making up that document.

Many years ago, we did not own the mouth of the Mississippi, and the purchase of the Louisiana Territory was the result. It will become necessary for us to purchase the outlet of the Colorado -for just now that river bids fair to be of great importance to Utah and the Territories lying on the North.

The outlet of the Colorado is now within the domain of Duke Gwin. He may, if opportunity offers, give us some trouble in regard to it.

We apprehend, however, that those having charge of the interests of the Government on this coast, will give this question careful consideration, and that no injury will result to us."

It is certain that the United States bwning all of the Colorado except its butlet, should also own it. The same arguments that years ago applied to the Mississippi, now apply with equal force to the Colorado

At this time while the eastern people are agitating the petroleum question and realizing immense profits from their investments therein, the following extract may not be uninteresting to our readers :

How PETROLEUM is FORMED .- The Pittsburg Chronicle, speculating on the tormation of petroleum, says:

"We may set it down as an axiom, that nature is not only capable of pro-ducing now, all the articles that she has ever produced, but that she is and will continue to produce them until she substitutes something better. Perhaps our meaning will be better understood by applying to it a single article Suppose, for instance, we take the one in which we have o deep an interest—petroleum. This is known to be a hydro-carbon. composed of two gases. These gases are primary elements, indestructible and exhaustless in quantity. One of themhydrogen-is a constituent of water, and of cobree is inexhaustible as the ocean The other is a constituent in all vegetable forms and in many of our rocks. One bundred pounds of time-stone, when burned, will weigh but sixty pounds The part driven off is carbonic acid. Underlying the "Old Rock," is a stratum of limestone, of unknown thickness, but known to be apwards of one thousand teet in depth. The water falling on the surface and percolating through the porons sand-stone that overlies the rock, becomes charged with salt, potash, sattpetre and other chemical ingredients, and finally reaches the limestone rock and decomposes it—the carbon uniting to form oil, while the oxygen is set free to ascend to the atmosphere or unite with minerals and form oxydes. The re-verse of this process is seen in burning the oil in a lamp - the oxygen in the atmosphere uniting with the carbon in the oil, forming carbonic acid, and with the hydrogen forming water—thus completing the circle. The question is frequently asked, when will the oil become ex-bansted? We may answer, when the ocean is, and not before."

JAPAN .- It is said that a new treaty has been effected with Japan, by the United States, England and France. great many persons compositions suffi- San Francisco will derive the greatest benefit from it. She is destined to be and the Occident.

#### The Condition of Peace.

"In stating a single condition of peace I mean simply to say that the war will cease on the part of the Government whenever it shall have ceased on the part of those who began it."-Lincoln's lessage, 1864.

Peace rumors come thick and fast The community is excited about them. We have been unable to gather one grain of wheat from all the telegraphic chaff on the subject. Less than sixty days ago, President Lincoln solemnly declared to Congress and to the nation the words quoted at the commencement of this article. We believe that he intended both to understand the words as they are written. We do not believe he has changed his views on the subject. There is also much talk about an abandonment of the Emancipation proclamation in the event of peace being declared. We meet this talk with the following words from the same message :

"In presenting the abandonment of armed resistance to the national authority on the part of the insurgents, as the only indispensable condition to ending the war on the part of the Government. I retract nothing heretotore said as to slavery. I repeat the declaration made a year ago—that while I remain in my resent position I shall not attempt to retract or modify the emancipation pro-clamation, nor shall I return to slavery any person who is free by terms of that proclamation or by any of the Acts of Congress. If the people should, by whatever mode or means, make it my execuive duty to re-enslave such persons another, and not I, must be their instrument to perform it.'

The President has declared that be tween the Government and the rebellion "the issue is distinct, simple and inflexi ble. It is an issue that can only be tried by war and decided by victory."

We repeat our opinion, given several days ago, that we place no credit to these many peace romers. unless they are based upon the main and necessary proposition of submission to the authority of the Government on the part of the Southern people. When these rumors begin to assume this proposition, then we will believe that peace by negotiation will be accomplished-but until then we do not give a straw for all the rumors that may come to us.

The authority of the Government must be fully and completely vindicated. This can only be accomplished by the voluntary act of the Southern leaders in abandoning the rebellion-or in vigorous war on the part of the nation, until they are forced to submit. We prefer the first proposed result, if possible. That failing. we insist upon the latter, and oppose all propositions aside from these two as unworthy of the consideration of the Government.

Calico Ball.-The "Local Items" of the Carson Post says that a grand Calico Ball will be given in that town-that he is going sure, and offers to wager a small sum that he will succeed in treading on a dozen sik dresses thereat ers. May we inquire—is that last remark intended to be "slightly sarcastic."

SENATORIAL - The following named are mentioned in California for the place now occupied-but soon to be vacated -by James McDougal:

F. F. Low. John Bidwell. A. A. Sargent, Fred. Billings, T. G. Phelps. F. M. Pixley, J. McM Shafter, J. B Southard. J. W. Wivans and H. S. Brown.

We think the race is with the four gentlemen first named.

VALUE OF FEET. We observe the following prices ruling in Nevada :

Gould and Curry, \$1,495@1,500; Potosi. \$725; Ophir, \$330; Yellow Jacket, \$930; Chollar, \$1.010@995; Imperial, \$1274@131; Bullion, \$814@90; Sierra Nevada, \$24; Burning Moscow,

Give us a few good mills in Zush Val-

WE CLIP the following from the Fort Bridger correspondence of the Sacramento Union:

The Overland Mail

Has again ceased operations between Atchison and Denver. Cause-another Indian raid on the Platte river. vere chast ement given the Indians not long since by Col. Chivington has not produced the desired effect, if an opin-ion may be based upon recent results. The telegraph has already given the par-ticulars of the new trouble and also the order of the Postmaster General to send all mails by steamer—a rough arrange-ment for all east of Salt Lake; but an arrangement that cannot be helped until the Indians of the Platte are compelled to behave themselves. Different opinions exist with different persons re siding on and near the Overland Mail route as regards the best system to be employed in compelling Indians to behave themselves. In general terms, the read should be under the control of one man-too many spoons spoil the broth -and public opinion, from Atchison to Carsor. City, points unmistakably to the man. It is not necessary to name him, for every person familiar with the Over-land Mail service during the past three years knows that man's name. It is about the only name the Indians of the Plains fear to-day. More troops are needed on that portion of the road. If posts were erected near Liberty Farm, on the Little Blue, about 75 miles east of Kearny-at Cottonwood Springs, 90 miles west of Kearny-at Julesburg-midway between Julesburg and Latham. and at Latham, and these posts were each garrisoned with two squadrons of cavalry, the road would continue open. Indians, to be thoroughly subdued, must be thoroughly whipped—whipped until they tremble at the mere mention of the word "soldier." Until they are so whipped there is but little safety from their conduct. Half fight and bulf peace will never win with Indians. It is hoped that the present interruption will not continue long—anyhow, whatever can be done in the premises will be done.

The Colorado Road

Will attract attention during the coming freighting season, the Indian troubles assisting very materially to that end It will prove, however, a slow and expensive method of getting goods into Utah from the Eastern markets. So far as the Pacific is concerned, the rail road men had better horry up that iron borse arrangement. The Reese River country is already agitated upon the subject.

#### Odds and Ends.

The Legislature has about finished the session. The only prominent fea-tures connected with that body are as follows: Excluded the Vedette, the only loyal paper in the Territory, from the sittings; repaired the School Law; asked Congress to increase Mormon jurisdiction by adding a slice of Arizona to Utah for govermental purposes; granted a few franchises; discussed the propriety of shooting convicts who chanced to escape from that magnificent structure-the Territorial Penitentiary. Should have passed a law demolishing the institution, for it is the sadest spe-cimen of dilapidated adobes to be found in the Territory. Perhaps did declare Camp Douglas, as usual, a maisance not certain, however, upon this point

Much to the surprise, anger and in-tense astonishment of certain frothy bishops, the Vedette has commenced the practice of reporting their so-termed sermons. A rich expose was made not long ago of a tirade given from the pulpit of a Ward Meeting-house. How the fur scattered! A few days afterwards a leading dignitary of the Church was sent to the same meeting house, and the silly threats of a frothy bishop were

utterly repudiated.

A certain M. D. who dispenses justice in Salt Lake City, stepped from his judicial bench into the pulpit, and coun-selled his hearers to tear down houses and destroy private property-to even go further: that he was Coroner, and would not be found when his services were required. He was agreeably sur-prised to find in the Vedetle a full report of his speech. Since then he has discovered that certain houses are rather

boom-proof, and has quietly subsided.

The Telegraph has "hobbied" along on Col. Chivington's fight—so much so that one can hardly tell what it really does mean and think of the affair; a general desire, however, to get some-body into trouble is the dominant idea.

beat the above figures and not half try. of a similar law in Nevada.

THE VIGILANCE COMMITTED CARE Yesterday morning the jury in the Thurmond vs. Fox case came into court and said that they had been unable to agree. On Saturday night the court charged the jury that, although the Utah Statutes anthorized a verdict to be rendered in civil cases when two-thirds of the jury agreed, this was a case under the common law and the jury should be unanimous. Yes. terday morning the court changed in base and instructed the jury that if two thirds or more could agree upon a verdict, it should be rendered. The jury retired and shortly afterwards returned with a double verdict. The first was unanimous, and was simply, "We, the jury, find for the plaintiff," Then fol lowed a verdict signed by twelve of the jury, giving damages against the defend. ant in the sum of three thousand two hundred and fourteen dollars and twenty-eight cents. (\$3,214 28.) As not one cent's damage was proved on the trial. there was considerable curlosity expressed as to what sort of mathematics the jury exercised in arriving at so precise a verdict.

Counsel for defence excepted to the charge of the court, and the entry of the verdict-and gave notice that they would move to set the verdict aside.

This has been a highly interesting and important case, and probably will not end here.

An overland telegraph is in process of construction between America and Europe, by way of the Bhering Straits and Arctic Russia. The enterprise is progressing favorably.

A COMPANY of Culifornia infantry-has been ordered to the vicinity of the new Almaden mines, to repress threatening difficulties between the owners thereof and neighboring citizens. -

SIGNIFICANT .- The record proves that during the month of January, 1865, more than five thousand deserters came into our lines from Lee's rebel army. Rats desert a sinking ship.

CAMP UNION .- The Sacramento Bee says that this camp, under Col. McGarry. " has become the most neat, orderly and comfortable military establishment in the United States."

THE organized militia of California number 6.616 men, who can be called into active service on a day's warning.

EL DORADO county (Cal.) is now femous for its fine vineyards—already rivaling those of Los Angelos.

CALIFORNIA has given to the Sanitary Commission, since Nov. 9, 1864, the sum of \$13,661.

The erange crop of Los Angeles is very large and magnificent.

ATTEMPT TO ASSASSINATE. - Correspondence from Fresno county, which appears in the Sonors Dimocrat of 14th January, Bays:

One of the basest attempts to commit a cowerdly assassination that I have heard of for a long time occurred in this county one night last week, at a place called Sprangled Gold Gutch. Maj. J. W. Brown and two other men were in their cabin, and just as they were about to retire for the night, the Major raised from his bunk where he was lying, to blow out the candle, when some one from the outside discharged s gun through the window at his head, and tore away most of his nose. The gun was loaded with slugs, and is supposed to have been fired by a man who had a THE Virginia Union presents an able dispute with Brown in regard to article against the specific contract law a mining claim. The Sheriff's supposed culprit.

### Local Matters.

Our attention has been called to an article in the VEDETTE of November 16th, 1864, setting forth some of the true principles of the Fenian Brotherhood, and also in substantiation of the devoted loyalty of this society. Under the article referred to is a clipping from one of our exchanges, to the purport that the above article was all "trash," and generally ridiculing the statement there made.

We would condidly say to all who have entertained the thought that the said clipping was inserted by us with any intent of destroying the sense of the able article respecting the Fenian Brotherhood, or of showing it to be anything to be discredited, they are laboring under a wrong impression, and that such feelings are harbored against us without cause.

The piece was inserted by our former foremen, when imposing the form on that day, merely to fill the column, but with no thought on our part of any allusion being made to the article immediatly preceding it. .

DECLINED.-We have received a communication from a soldier (so represented) belonging to Co. "B," 1st Nevada Cavalry. He is stationed at Fort Bridger. We decline to publish his article. If the facts are as he states them in his communication, the remedy lies in a course other than rushing into a newspaper -for so doing will not remedy the alleged evils. It is not the privilege of any officer or enlisted man to make military complaints through the columns of any newspaper. Either can obtain full and exact justice by pursuing the proper course; and we apprehend there are officers and enlisted men at Fort Bridger who can inform our correspondent of the proper course for him to pursue. We are satisfied that he will, upon reflection, agree with us.

PRIVATE McGuire was yesterday morning "drummed out of the service" at Camp Douglas.

This man has been for a long time a disgrace both to this command and his comrades, and now has been marched from our camp to the tune of the rogue's march. It is a pity to see a man thus wilfully disgrace himself. There is no necessity for such conduct on the part of any soldier in Gen. Connor's command. Aside from military duties, every opportunity has been offered for the advancement of moral and social reform, and no soldier can, in our opinion, justly complain of any indulgence which is within the limits of military discipline that has not at all times been granted

A PERSON to do general housework is wanted in an officer's family at Camp Douglas. Liberal wages will be paid. See advertisement.

THE meetings of the I. O. O. F. will hereafter be held in Daft's Hall, S. L. City, on Wednesday evening

NEW TELEGRAPH LINES .-- A company has been organized in New York for the purpose of erecting two more lines across the continent. The West progresses rapidly, although some people do not appear to know it.

GAS LIGHTS are introduced on the streets of Virginia City. They are needed, if there are now as many shafts thereabouts as there were two years ago.

PENSIONS .- The Pension office at Wash ington receives an average of five thousand applications per month.

# ODD FELLOWS ASSOCIATION.

DAY evening, in Date Hall, G. S. L. City.
Brethren of the Order, cordially invited to attend.
R. L. WESTBROOK,
R. S. CRAIG, R. S CRAIG, Secretary. feb7-tf

Too Much Dirro. In a small village in New England lived an old chap who, though quite wealthy, did not possess a good education, as also did not his wife. He purchased much of honsehold goods at a dry goods and grocery store in the village, and at the close of the year the bill was presented for payment.
On one occasion, in looking it
over, he observed that the word "ditto" occurred frequently. On reaching home, he said to his wife-

" What have you been doing with so much ditto this year? showing how it stood on the bill. "I haven't bought any; and what have you been doing with so much?"

"I haven't had a bit," she replied.

"You must have had it," he turned; for G always dealt honestly by me, and here it is on the bill; you can see for yourself,"

"I don't care if it is ; I haven't had any, and G-has cheated ed you; I always said he would." "Well, he replied, then I must

see about it." So he trudged back to the store.

"Look bere G , what do you mean by charging me with so much ditto? I haven't had any, and my wife says she hasn't? - bit his lips and politely explained.

When the old gentleman returned home, his wife inquired if he had found out about the "dit-

"Yes," he replied; "I have found out that I was a great fool, and that you were a ditto."

Tax editor at a wester's paper is in clover. His printer boys having all gone to fight the Indians, be entired half a dozen of the best looking girls in town, and is now training a corps of compositors not subject to the draft.

THE Southern Independence Association in Pall-Mall, London, wisely closed its doors when the result of the Presidential election was known, nor has it opened them since !

Ar a recent donkey show, in London, the prizes, nineteen cups, were all taken by one man. Not that he was the greatest donkey, but he stole the cups.
